

HARD WAX & OIL + XLINK

Wood –Armour's Hard Wax & Oil + Xlink is a 100% solids, urethane modified polymer based on linseed oil. Due to its urethane modification, it has better chemical and mechanical properties when compared to standard oil based products.

Wood –Armour, unlike conventional varnishes, penetrates deep into the wood leaving a tough durable surface. Protects and colours in one single application.

A VARIETY OF COLOURS ARE AVAILABLE AND INCLUDE THE FOLLOWING:

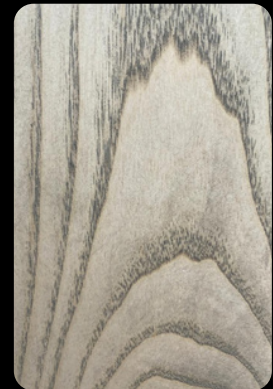

Sky Grey

Walnut

5% White

Ash Grey

Other colours available: Moss Green, black black, royal blue, golden brown, Dark brown, mahogany, charcoal and many more to come . . .

EMBRACE THE NATURAL PROPERTIES OF WOOD:

WOOD COAT FINISH

Wood Coat Finish is a non-yellowing, water based acrylic wood coating. It consist of Electrostatically charged Polymers, therefor no Emulsifiers are used.

CAN BE USED AS A CLEAR COAT OR TINTED TO YOUR DESIRED COLOUR

Coatings on dark substrate appear clear and without haze.

The final transparency is excellent.

KEY BENEFITS INCLUDE:

- Leaves a warm natural wood finish
- High Scratch and stain resistance
- Early water resistance
- Excellent Oil & Fat resistance
- Low PH for Oak Woods

Long open time, but snap drying.

Block resistance is ultra fast.

CAN BE TINTED TO YOUR DESIRED COLOUR

WOOD ARMOUR™
